Professorship in Aquatic Science
Lecture

For the Sake of

Our Lakes

Algal Blooms and Their Effects on Nutrient-Poor Lakes: Opening Pandora's Box with a Biotic Key

Dr. Kathryn Cottingham

Thursday, March 15, 2012

7:30 pm

Trent University

Gzowski College Room 114

Dr. Kathryn Cottingham is a Professor at Dartmouth in the Department of Biological Sciences. She is an ecologist who is known for her work on quantitative methods of ecology, lake food web dynamics, and the ecology of disease organisms. In this lecture, she will specifically examine the effects of cyanobacterial blooms on nutrient-poor lakes.

This is a free event, open to the public.
There will be a reception following the lecture.
